三、下水文

Raython's Version (111 words)

As we transition to university life, finding the right balance among these priorities becomes crucial. I would rank them in this order: Sleep, Study, and Socialization.

Sleep deserves top priority, as it supports both physical and mental well-being. Without sufficient rest, studying becomes ineffective and socializing exhausting. Study comes next, as academic growth is a primary goal of university life that lays the foundation for future success. Though ranking third, socialization retains its true value only when built upon adequate sleep and solid academics. After all, meaningful connections flourish when we're energized, not depleted.

Ultimately, while all three priorities matter, putting first things first is what enables the others to thrive.

第二节 (满分 25.0 分)

一、评分标准

3. 评分时，应先根据作答的具体情况确定其所属的档次，然后以该档次的要求来综合衡量，确定或调整档次，最后给分。

（1）词数少于 120 的，酌情扣分；

（3）单词拼写和标点符号是写作规范的重要方面，评分时应视其对交际的影响程度予以考虑，英、美拼写及词汇用法均可接受。

Text 2 餐桌闲聊(01:55~02:04)

M: No thanks. It's really good, but I can't manage any more.

Text 3 探讨摄影作品(02:35~02:48)

W: Hey! Look at this one in the newspaper. Fishermen fishing in Lake Victoria in Tanzania.

M: Wow, that's awesome! I like the unique atmosphere caught by the photographer.

Text 4 劝其休息(03:22~03:33)

W: It's almost midnight, Max. You've got a long drive tomorrow.

M: Okay, another 15 minutes from my travel blog and I'll be done.

Text 5 改约见面(04:02~04:20)

W: Hello Mr. Waterman. This is Sarah Jones. I'm stuck on the highway. There's a serious accident. I'm afraid I can't arrive before noon. Could we meet this afternoon?

M: Okay, I'll see my doctor at one and will be available after two.

Text 6 城市对比(05:50~06:25)

M: Lisa, you're English, but you live here. What do you love about Copenhagen?

W: It has everything big cities offer. Cafes, Theaters, Museums, but it is still relaxing and manageable. Unlike London, you don't feel constant pressure here.

M: Was this lifestyle why you first came?

W: No, I originally came for a three-month project at a law firm. After finishing it, they offered me a permanent job. I took it and stayed.

Text 7 预定晚宴(07:44~08:38)

W: The Garden Hotel. May I help you?

Text 8 讨论 AI 商业创作(10:20~11:15)

W: Dear listeners, the song we've just heard was made with an AI version of Jenny's singing voice.

M: Yeah, earlier this year Jenny announced that she'd let anybody make a song using her AI voice, as long as they were entitled and shared their profits with her, and in just a few weeks, more than 300 new songs were created using her AI voice.

W: Incredible! Just imagine, Jenny may have been at home drinking a glass of wine while her AI clone voice worked hard to sing her songs. This could be an attractive new business model for a pop star.

M: Indeed. But some of our listeners called to say they want to hear Jenny's real voice. Now let's play one of her greatest hits. *Show me your love*.

Text 9 古巴比伦食谱文本(12:57~14:02)

M: Dr. Evans, you just said that these ancient texts are actually the recipes from ancient Babylonia. Can you tell us more?

W: Ancient Babylonia is home to many of the things that we use in our cooking today. I bet about 50% of the energy you need every day comes from vegetables or animals that originated in this area.

M: Why have these texts taken so long to come to light?

W: These ancient texts have been known since the 1920s but were thought to be medical texts. In the 1940s, Mary Hussey, an American scholar, suggested that they might be about food, but people didn't believe her until French author Jean Poteau. In the 1980s, was asked to write an article about cooking in the past. He had heard about the texts, so he went to Yale University and found out that they were indeed about food.

Text 10 实验规则注意事项(16:00~17:13)

Before we begin today's experiment, let's review the lab rules. First, safety glasses must be worn at all times, even if you're only watching. Second, never mix chemicals unless the instructions tell you to do so. Today we're using a strong acid, which can cause serious burns if it touches your skin. If any chemical container is knocked over, DON'T PANIC! Tell me immediately, and I'll handle the cleanup. Also, keep your hair tied back and avoid wearing loose clothes. We will work in pairs. One person will handle the tools while the other records the data. Switch roles after every three trials to ensure everyone gets practice. Remember, the goal is accurate data, not speed. If you finish early, do not start a new experiment. Instead, clean your workspace thoroughly. Any questions? No? Alright, let's have a safe and productive class!
